

As a small market broadcaster I am writing to express my concerns regarding the proposed rule making regarding the mandatory recording of programming at stations.

1. Most radio stations in this country are very responsible and serve their communities well and with much respect. Just because there are a few bad apples out there, should all of us have to pay with additional work load and expense?

2. The type of equipment that would be needed to install to record our programming is expensive. Not to mention the burden that will be put upon us to insure the equipment is working properly.

I strongly encourage the FCC to please re-consider this proposal.

Sincerely

Sue Goldsen
